WEBSITE CREATION PROCESS

1. FIRST DESIGNS

Here we have to make a very basic draft of the web side.

2. DESIGN THE LOGO

Wind Runners

WR

With the help of a IA (https://www.logoai.com/) we design a logo for the project.

3. CHOOSE A PALETTE

We have to choose a palette of colors for our webpage, that make sense with the topic of the blog

E7ECEF
Anti-flash white

1C448E
Marian blue

009DDC
Celestial blue

5. THE RESULT

After typing our code we will see the web page finished. Here its the result.

4. TYPE THE CODE

```
<div class="col-lg-3 p-2 col-md-4">
  <select class="float-end" name="" id="">
    <option value="">Amarres</option>
    <option value="">Nudos</option>
    <option value="">Navegacion</option>
    <option value="">RIPA</option>
    <option value="">Veleros</option>
    <option value="">Barco a motor</option>
  </select>
  <label class="float-end" for="">Topico </label>
  </div>
</form>
<div>
  <h1>Blogs</h1>
  <!-- articulo 1 ejemplo -->
  <article>
    <div class="row">
      <div class="col-lg-2 col-md-4">
        <img
          class="article-imagen"
```
